PROFESSIONAL SUMMARY

WordPress and WooCommerce developer with hands-on experience building responsive business websites, e-commerce stores, and real-estate platforms for clients in Pakistan, the UK, Canada, and Dubai. Strong in Elementor, WooCommerce configuration, custom page layouts, forms, product and checkout workflows, HTML, CSS, JavaScript, website performance, maintenance, and troubleshooting. Experienced in cPanel and WHM administration, DNS, SSL, business email, backups and restores, website migrations, hosting migrations, and server-to-server transfers. Supporting experience with REST APIs, React, Node.js, AWS EC2, GitHub Actions, and Linux enables me to handle advanced integrations, hosting environments, and reliable website deployments.

CORE SKILLS

WordPress & E-Commerce

WordPress, WooCommerce, Elementor, product and checkout setup, forms, content workflows, website maintenance

Hosting & Migrations

cPanel, WHM, web hosting, DNS, SSL, business email, backups/restores, website and server migrations

Front-End & Integrations

HTML5, CSS3, JavaScript, responsive design, AJAX, REST APIs, third-party integrations

Performance & Support

Speed optimization, mobile usability, cross-browser testing, security updates, troubleshooting, technical support

PROFESSIONAL EXPERIENCE

Junior Full-Stack & DevOps Engineer

Oct 2025 - Present

[Minute Marketing.AI](#) | Rawalpindi, Pakistan

- Support web applications, APIs, cloud infrastructure, and connected systems while contributing to reliable deployment and production operations.
- Build, test, and troubleshoot REST API workflows using JWT authentication and Postman, including pre-request scripts that dynamically retrieve and pass tokens across protected collections.
- Manage AWS EC2 and Linux-based deployment environments using GitHub Actions, PM2, Nginx, monitoring, migrations, and infrastructure troubleshooting.

Website Developer & IT Support

Mar 2025 - Oct 2025

[Minute Marketing.AI](#) | Rawalpindi, Pakistan

- Built, maintained, and improved responsive WordPress websites using Elementor and WooCommerce.
- Customized page layouts, forms, plugins, and front-end functionality to support business and marketing requirements.
- Managed website updates, hosting tasks, content changes, performance improvements, and day-to-day troubleshooting.
- Provided technical support for websites, software, user access, accounts, and general system issues.

Website Designer & WordPress Developer

Aug 2021 - Feb 2025

[Web Help PK Pvt Ltd.](#) | Rawalpindi, Pakistan

- Designed and developed responsive WordPress websites and WooCommerce stores for clients in Pakistan, the UK, Canada, and Dubai.
- Built and customized solutions using WordPress, Elementor, WooCommerce, HTML, CSS, and JavaScript.
- Configured themes, plugins, forms, product pages, checkout experiences, and content-management workflows.
- Managed cPanel and WHM hosting environments, including accounts, domains, DNS, email, SSL, backups, restores, and troubleshooting.
- Performed website, hosting, and server-to-server migrations while protecting data and minimizing downtime.
- Improved speed, mobile responsiveness, usability, security, and cross-device compatibility; provided ongoing maintenance and post-launch support.

ADDITIONAL EXPERIENCE

WordPress Developer (Remote / Contract)

Sep 2022 - Feb 2025

[Estate Developers International](#) | London, United Kingdom

- Designed and developed a responsive WordPress website for a London-based real estate agency.
- Built property-listing pages, enquiry forms, and lead-capture workflows aligned with the company sales process.
- Integrated the website with 10ninety CRM to support property-data management, lead tracking, and customer follow-up.
- Optimized mobile responsiveness, usability, performance, and cross-browser compatibility; provided ongoing maintenance and support.

- Delivered a responsive WordPress solution aligned with business and operational requirements.
- Built a custom Project Data Sheet system and implemented AJAX-powered search and filtering for faster internal record retrieval.
- Customized layouts, forms, and functionality using WordPress, Elementor, HTML, CSS, and JavaScript.

SELECTED WORDPRESS PROJECTS

Real Estate Website & CRM Integration

- *WordPress, Elementor, 10ninet CRM, Lead Capture*
- Created property-listing, enquiry, and lead-capture workflows for a London real-estate agency and connected the website with 10ninet CRM.
- Focused on mobile usability, clear navigation, reliable data flow, and ongoing website maintenance.

AJAX Project Data Search

- *WordPress, JavaScript, AJAX, Elementor*
- Developed a Project Data Sheet interface with asynchronous search and filters to make internal project records faster to locate.
- Improved data accessibility without requiring repeated page reloads.

Multi-Client WordPress & WooCommerce Delivery

- *WordPress, WooCommerce, Elementor, cPanel, WHM*
- Delivered and supported business websites and e-commerce stores across multiple international markets.
- Handled build, hosting, SSL, backups, performance, maintenance, and migration requirements across the website lifecycle.
